FOREWORD

As has become typical throughout Alaska's history, the boom years are by us and the bust has come. The year of 1987 saw declining property values in larger municipalities as the worldwide instability of the price of oil, with its general downward trend, took its toll in Alaska's real estate market. That downward trend is reflected in this year's report on local assessed values and the Full Value Determination.

As Alaska licks her economic wounds and moves ahead into 1988, we are seeing growing optimism in the real property market place. The complacency which inevitably accompanies good times seems to have been transformed into creativity. We are now seeing an all-out effort by Alaskans to revive the state's economy and begin the positive climb toward stability in the real estate market. We are already beginning to see improvements in the market from those efforts; and we look forward optimistically to the challenges of the upcoming year.

CHAPTER I

INTRODUCTION

THE ALASKA PROPERTY TAX

The Power to Tax

The power to tax is an essential power of state sovereignty, not depending on a grant of authority from its constitution. However, constitutional provisions regarding taxation serve to define and restrict a state's otherwise unlimited power to tax.

The Alaska State Constitution places three major restrictions on the levy of property taxes:

1. "No tax shall be levied .... except for a public purpose." (Article IX, Section 6)

2. "Standards for appraisal of all property assessed by the State or its political subdivisions shall be prescribed by law." (Article IX, Section 3)

3. "The State may delegate taxing powers to organized boroughs and cities only." (Article X, Section 2)

Unlike the state, boroughs and cities do not possess any inherent power of taxation; though some power has been granted by the State Constitution or the statutes. The power of taxation, therefore, is an extraordinary one; the administration of which is not to be left to implication or inference. For that reason, the Alaska Statutes, together with certain Attorney General's opinions and court decisions, clearly delineate the jurisdiction of municipalities in the assessment, levy, and collection of property taxes.

Uniform Measures

"Taxes are said to be 'equal and uniform' when no person or class of persons in the taxing district, whether it be state, county, or city, is taxed at a different rate than are other persons in the same thing, and where the objects of taxation are the same, by whomsoever owned or whatsoever they may be." (Weatherly Independent School Dist. V. Hughes, Tex Civ. App. 41 S.W. 2nd 445, 447.)

The first step toward establishing uniform assessment procedures in Alaska was taken in 1961-62 when the House of Representatives and the Senate, responding to Section 3 of Article IX of the State Constitution (cited above) passed House Concurrent Resolution No. 14 (HCR 14). This resolution required the Local Affairs Agency (now the Division of Municipal & Regional Assistance within the Department of Community & Regional Affairs) to prepare a study of assessment problems and procedures in Alaska, a manual for assessors and a report recommending any legislation necessary "to assure a uniform, equalized, and realistic assessment of property throughout the state." The resolution further authorized the Agency (now the Department) to inspect the records of equalization, to hire an assessor, and to hold any hearings deemed necessary for the preparation of the study, the manual, and the report.

The Local Affairs Agency, together with the Alaska Association of Assessing Officers, originally published the manual in 1963. That manual has been periodically updated with the latest revisions made in 1967.

There have been a number of reports and studies done by the Division of Municipal & Regional Assistance, the most recent of which was "An Examination of Property Tax Exemptions," prepared and distributed for the Second Session of the Eleventh Legislature (1980).

In addition to HCR 14, in 1962 the Legislature adopted AS 14.17.140 requiring "...the Department of Community and Regional Affairs, in consultation with the assessor for each district, shall determine the full and true value of the taxable real and personal property in each district."

The full and true value estimate, prepared pursuant to the above statute, is used as the uniform measure of wealth for many state programs (Table IV).

Definition of Full and True Value

Full and true value, as the basis for the full value determinations, may be defined as "...the estimated price which the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer, both conversant with the property and with prevailing general price levels." (AS 29.45.110 AM. CH 74 SLA 65.) Full and true value determinations are made annually by the State Assessor in conformance with uniform standards as defined in Attorney General Opinion No. 18, 1962.

The Full Value Determination

Local control is a basic premise in Alaska's local government structure. As a result of that premise, municipalities have a unique amount of flexibility in the area of property tax administration.

There are numerous optional exemptions that may or may not be adopted, as a local government desires; they are discussed in AS 29.44.050.

In addition to optional exemptions, municipalities reassess based on several different time frames. Those time frames range from a reassessment every year to every four or five years.

Even though local systems vary widely, a common unit to uniformly measure local values was needed. The Full Value Determination prepared by the State Assessor, Division of Municipal & Regional Assistance, became that measure.

Through the use of sales studies, as described in Chapter II, and with the assistance of local assessors, the State Assessor is able to adjust locally generated values to compensate for optional exemptions and the varying reassessment cycles.

Program Uses

The major programs using the full and true value estimate are:

1. State Revenue Sharing - the formula used to compute a municipality's State Revenue Sharing entitlement is based on relative wealth (full value determination) and local effort (locally generated revenues);

2. the Public School Foundation's funding formula uses full value determination as one of its components;

3. the local match portion of Cultural Facilities Grants is partially based on the full value determination;

4. some grants for Senior Citizen programs are based on the full value determination; and

5. the ability to bond for local programs is affected by full value determination.

Tax Limitation

There are four statutory tax limitations in Alaska. They apply to varying degrees and under various circumstances as explained below. In each case, the limitation applies only to expenditures for operating costs of local government. There is no limit on taxation to pay bonded indebtedness.

1. Second Class Cities may not levy taxes which exceed one half of one percent (.5%) of the assessed value of property within the municipality in any one year.

2. Any other type of municipality may not levy taxes which exceed three percent (3%) of the assessed value of property within the municipality in any one year.

3. No municipality, or combination of municipalities occupying the same geographic area, may levy taxes exceeding $1500 per resident in any one year. *

4. No municipality, or combination of municipalities occupying the same geographic area, may levy taxes which exceed the product of 225 (225%) percent of the average per capita full and true value of property in the state multiplied by the number of residents of the taxing municipality. *

* The limitation described in Item 4 negates Item 3. In every instance, potential revenues obtained through the use of Item 4 would exceed those obtained by the use of Item 3.

Errors In Municipal Assessment, Valuation, or Taxation Records

Alaska Statutes 29.45.103-105 were amended in Chapter 14 SLA 1984 for the purpose of reviewing municipal assessments, valuation, or taxation records and providing for notice of major errors:

Sec. 29.45.103. Taxation records. (a) Municipal records dealing with assessment, valuation or taxation may be inspected by the State Assessor or a designee.

(b) If a municipality's assessment and valuation has been done by a private contractor, records concerning the municipality's valuation and assessment shall be made available to the State Assessor or a designee on request. (§ 12 ch 74 SLA 1985)

Sec. 29.45.105. Errors in taxation procedures. (a) If a municipality receives a notice from the State Assessor that major errors have been found in its assessment, valuation or taxation procedures, the municipality shall correct its procedures before the beginning of the next fiscal year or file an appeal under (b) of this section.

(b) A municipality may appeal a notice from the State Assessor that it has made a major error in assessment, valuation or taxation procedures by filing an appeal with the commissioner within 30 days after receipt of notice of error.

(c) The commissioner, after consulting with the Alaska Association of Assessing Officers, shall render a decision within 60 days after the receipt of a request under (b) of this section. If the commissioner determines that a major error has been made in assessment, valuation or taxation procedures the commissioner shall notify the municipality of changes that must be made and the municipality shall correct its procedures before the beginning of the next fiscal year.

(d) If errors in its assessment, valuation or taxation procedures have resulted in a loss of revenue to the state, the municipality shall reimburse the state for the amount of revenues lost. (§ 12 ch 74 SLA 1985)

The organized borough concept of areawide local government, rather than the traditional county form of government, was adopted for Alaska primarily because most of its land was uninhabited. As development and the subsequent need for community services occurs, the borough concept provides a mechanism for annexation or incorporation, as necessary, of the unorganized borough.

Organized boroughs, and home rule and general law cities which are outside the corporate limits of boroughs, have general municipal responsibilities and powers including areawide education, property assessment and collection of taxes, and planning and zoning. Second class cities have limited taxing powers but no educational responsibility. In the unorganized borough, education is provided totally from state funds.

STATE POPULATION: July 1, 1987 (AS 29.88.015.[a]) The following population figures were estimated by the Department of Community and Regional Affairs for purposes of establishing the revenue limit under AS 29.53.050 and for distributing state shared revenues under AS 29.88.

ASSESSMENT STATISTICS AND RATIO STUDIES

Local Assessment Policy

Sales-Assessment Ratios

Full Value Determinations

CHAPTER III

ASSESSMENT STATISTICS

AND RATIO STUDIES

The local assessor has a legal, professional, and ethical responsibility to uniformly value all property within his/her jurisdiction. In addition, it is his/her duty to insure that all values on the assessment roll represent "full and true value" pursuant to AS 29.45.110 (§ 12 ch 74 SLA 1985).

Assessment ratio studies may be used as a measure of uniformity and a tool to analyze values both within and among jurisdictions. There are two major types of assessment ratio studies that can be conducted. They are sales ratio studies and appraisal ratio studies. The sales ratio study is the predominant method currently used in Alaska, and therefore, will be the only ratio study discussed.

The sales ratio study compares assessed values to sale prices (transacted during a specific time period and carefully verified). The results of these comparisons are generally expressed as a ratio in terms of percentage. The ratios are a result of division. In the process of analysis, the numerator is the assessed value and the denominator is the sale price. This ratio formula is expressed as follows:

$$\frac{\text{ASSESSED VALUE}}{\text{SALE PRICE}} = \text{RATIO (expressed as percentage)}$$

For example, if a residence sells for $100,000 and is assessed at $90,000, the ratio of assessment to sale price expressed as a percentage is 90 percent.

$$\frac{90,000}{100,000} = 90\%$$

Preparation of a Ratio Study

1. Assemble Sales Data

   a. Sources of sales data include, but are not limited to, recorders' offices, local realtors, developers, bankers, etc.

   b. Verify sales data by contacting one of the parties involved (grantee, grantor or realtor).

2. Select Samples

   a. For sales ratio, disbursement of sales should be checked to insure uniform coverage of total areas and to avoid using an overabundance of information from a specific area.

   (b) In all cases, the selection process should be restricted to individual classes of property (residential, commercial, industrial, etc.).

3. Compile Usable Data

   a. Correlate usable sales information into usable listing.

   b. Divide current assessed values by usable sales data and develop individual ratios.

   c. Sort resulting ratios and remove inconsistencies.

4. Compute Statistical Data

   a. Develop weighted mean.

Explanation of Statistical Terms

Weighted Mean is computed by dividing the total of all the assessed values by the total of all the sale prices. This is generally considered to be the most accurate indicator of the overall level of assessment on a unit-wide basis.

Area Multipliers are obtained by dividing the ratio by 1.00. This multiplier can then be applied to assessments to bring a unit to the required level. (Caution: multipliers used unit-wide or areawide tend to distort uniformity.)

Uses of Ratios and Multipliers

The results of sales ratio studies may be applied in several ways depending on the need of the user.

The most common usage comes from state equalization or full value determinations. The normal current procedure for full value determination in Alaska is the use of the weighted mean ratio to determine full value.

Example:

Sale Price	Assessed Value	Ratio
106,000	100,000	94.34%
100,000	106,000	106.00%
109,000	107,000	98.17%
132,000	125,000	94.70%
127,000	130,000	102.36%
122,500	122,500	100.00%
129,000	137,000	106.20%
141,000	140,000	99.29%
966,500	967,500	100.10%

These ratios could also be used by a local assessor to determine the level of assessment and internal equity, or to indicate areas that need professional attention.

Limitations of Use

Assessment ratio studies are devices for obtaining indications of the relation between market values and assessed values, and show general assessment levels within and among areas. Even though these studies indicate areas where inequities exist, they will not, in themselves, correct disparities among individual properties.

A sales ratio study is no more accurate than the information used. Therefore, the utmost care in selecting, screening, and verifying information is essential.

Also, care must be given not to overload a study with specific types of property. The optimum arrangement is to segregate by class (commercial, residential, etc.) and type (improved, vacant, water front, etc.). That procedure allows a proper weight to be used for each class and type of property.

ASSESSMENT RATIO STUDIES

The following can be used by individual municipalities to help monitor assessment performance; indicate the need for general reassessment; or indicate which neighborhoods or types of properties are most in need of reassessment.

Note: The following tests are guidelines only and do not replace statistical tests. In each case, the sample size should be at least 30.

1. If $(\overline{A/S})/(A/S)$ is greater than 1.10:

   good indication that over-assessment errors are more prevalent than under-assessment errors.

2. If $(\overline{A/S})/(A/S)$ is less than 0.95:

   good indication that under-assessment errors are more prevalent than over-assessment errors.

3. If $(\overline{A/S})/(\overline{A}/\overline{S})$ is greater than 1.10:

   good indication that assessment regressivity exists.

4. If $(\overline{A/S})/(\overline{A}/\overline{S})$ is less than 0.95:

   good indication that assessment progressivity exists.

Definitions

$\overline{A/S}$ = mean ratio

A/S = median ratio

$\overline{A}/\overline{S}$ = weighted mean ratio (same as weighted average ratio)

regressivity = assessment bias such that high-valued properties are assessed with lower A/S than low-valued property.

progressivity = assessment bias such that high-valued properties are assessed with higher A/S than low-valued properties.

TABLE II

LOCAL ASSESSMENT POLICY

Notes for Interpretation of Table II

FV = Full and True Value Assessment

EX = Exempt Property

NA = Municipality Does Not Levy Property Taxes

OPTIONAL EXEMPTION: Optional residential exemption up to $10,000 exercised (AS 29.45.050[a])

STATE COLLECTION: State collected, annual motor vehicle tax (AS 28.10.431)

5/15 Optional, $5 & $15 fee collected in lieu of property tax (AS 29.45.050[b][1])

Note: Nine* first class cities located outside of boroughs do not levy or collect property taxes. They are: Galena, Hoonah, Hydaburg, Kake, King Cove, Klawock, St. Mary's, Sand Point, and Tanana.

Second class cities have no school responsibility but may levy a limited property tax not to exceed five mills. The second class cities of Eagle and Whittier are the only second class cities which levy and collect a property tax.

* On October 23, 1987, the Aleutians East Borough incorporated, encompassing the two first class cities of King Cove and Sand Point. For 1987, those two cities are considered as being in the unorganized borough.

TABLE III

LOCAL ASSESSMENTS VS. FULL VALUE

Table III is broken into three parts: real property (III-A), personal property (III-B), and real and personal property combined (III-C).

Notes for Interpretation of Table III

MUNICIPALITIES: Boroughs and cities organized under the laws of Alaska (except those second class cities which are located outside of boroughs and do not levy a property tax).

TABLE VI

REAL PROPERTY STAFF STATISTICS - 1987

The table below is for informational purposes only. Total number of parcels are real property parcels as indicated by the municipalities' 1987 certified assessment rolls. The number of appraisers is for real property appraisers and the assessor. The assessment budget and cost per parcel are based on the total budget for the assessing department which includes personal property appraisers (where applicable), assessing clerks, drafting personnel, and employee benefits. Therefore, in most cases, the cost per parcel reflects more than the cost of assessing real property.

As the Bristol Bay Borough and all the first class cities outside of organized boroughs are appraised by contract assessors, they were not included in this table.

* EXPLANATION OF MILLAGE RATES:

AS 29.45.090(a) restricts the millage rate for the municipal operating budget to a maximum of 30 mills. (There is no limit on taxes to pay bonds.)

The 30 mill limit on operating revenues is levied against an assessed value not to exceed that produced by the following formula:

Average Per Capita Full Value X 225% X municipal population, or, for FY 88:

96,195 X 2.25 X 11,956 = $2,587,741,695[1] (Assessed Value Limit for operating budget)

$2,587,741,695 X 30 mills = $77,632,251 (FY 88 statutory limit for operating budget)

FY 88 Projected operating budget: $0

$\frac{\$ \quad 0}{\$2,587,741,695}$ = 0.00 mills (effective operating rate)

DEVELOPMENT OF ACTUAL OVERALL RATE (Taken from Resolution Serial No. 6-87):

FY 88 Projected budget for debt service (payment of bonds): $230,926,092

Actual assessed value: $12,570,827,780

$\frac{\$ \quad 230,926,092}{\$12,570,827,780}$ = 18.37 mills (levy to satisfy debt service)

$\frac{\$ \quad 30,241,000}{\$12,570,827,780}$ = 0.00 mills (levy to satisfy operating budget)

18.37 + 0.00 = 18.37 mills (actual overall rate)

1/Note: For FY 89, this calculation will be:

$83,430 X 2.25 X 10,904 = $2,046,871,620

* EXPLANATION OF MILLAGE RATES:

AS 29.45.090(a) restricts the millage rate for the municipal operating budget to a maximum of 30 mills. (There is no limit on taxes to pay bonds.)

The 30 mill limit on operating revenues is levied against an assessed value not to exceed that produced by the following formula:

Average Per Capita Full Value X 225% X municipal population, or, for CY 87:

$96,195 X 2.25 X 3,687 = $798,009,671 [1] (Assessed Value Limit for operating budget))

$798,009,671 X 30 mills = $23,940,290 (CY 87 statutory limit for operating budget)

CY 87 projected operating budget: $9,306,243 (property tax portion)

$$\frac{\$\ 9,306,243}{\$798,009,671} = 11.6618 \text{ (effective operating rate)}$$

DEVELOPMENT OF ACTUAL OVERALL RATE:

CY 87 projected budget for debt service (payment of bonds): $10,574,445

Actual assessed value: $1,510,639,550

$$\frac{\$\ 10,574,445}{\$1,510,639,550} = 7.0000 \text{ mills (levy to satisfy debt service)}$$

$$\frac{\$\ 9,306,243}{\$1,510,639,550} = 5.7011 \text{ mills (levy to satisfy operating budget)}$$

7.0000 + 5.7011 = 12.7011 mills (actual overall rate for operating and debt service only)

1/Note: For CY 88, this calculation will be:

$83,430 X 2.25 X 3,686 = $691,926,705

SENIOR CITIZEN/DISABLED VETERAN PROPERTY TAX RELIEF PROGRAMS

Tax Exemption for Homeowners
Equivalency Payments for Renters

SENIOR CITIZEN AND DISABLED VETERAN PROPERTY TAX EXEMPTION PROGRAM HISTORY AS 29.45.030(e) - (i)

January 1, 1973 - Alaska's first Senior Citizen Property Tax Exemption Program was enacted (Chapter 118, SLA 72).

January 1, 1974 - The $10,000 gross annual income limitation as a prerequisite to eligibility was deleted (Sec. 1, Chapter 60, SLA 74).

January 1, 1977 - An extension of the filing date deadline for "good cause shown" was authorized (Sec. 1, Chapter 65, SLA 75).

January 1, 1985 - Disabled veterans, whose disability has been rated as 50 percent or more and the widow or widower of a person who was eligible for payment and is at least 60 years old were added to the program. Prorationing language was also included in this bill allowing the department to prorate payments if appropriations are not sufficient to fully fund municipal reimbursements from this program. The senior citizen and disabled veteran will continue to receive 100 percent exemption under Chapter 40, SLA 84.

January 1, 1987 - The exemption was limited to the first $150,000 of the assessed value of real property. A municipality may, in case of hardship, provide for exemption beyond the first $150,000 of the assessed value (Chapter 70, SLA 86).

The law exempts the real property owned and occupied as a permanent place of abode by a resident 65 years of age or over or by a disabled veteran.

A breakdown of the FY 87 program by participating municipalities is illustrated in the table on the following page.

* AS 29.45.030 (e)

Sec. 29.45.030. Required Exemptions. (e) The real property owned and occupied as the primary residence and permanent place of abode by a (1) resident 65 years of age or older; (2) disabled veteran; or (3) resident at least 60 years old who is the widow or widower of a person who qualified for an exemption under (1) or (2) of this subsection, is exempt from taxation on the first $150,000 of the assessed value of the real property. A municipality may, in a case of hardship, provide for exemption beyond the first $150,000 of assessed value in accordance with regulations of the department. Only one exemption may be granted for the same property and, if two or more persons are eligible for an exemption for the same property, the parties shall decide between or among themselves who is to receive the benefit of the exemption. Real property may not be exempted under this subsection if the assessor determines, after notice and hearing to the parties, that the property was conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the assessor may be appealed under AS 44.62.560 - 44.62.570.

(f) An exemption may not be granted under (e) of this section except upon written application for the exemption on a form approved by the state assessor for use by local assessors. The claimant must file the application no later than January 15, or a date provided by ordinance that is not later than March 31, of the assessment year for which the exemption is sought. The governing body of the municipality for good cause shown may waive during a year the claimant's failure to make timely application for exemption for that year and authorize the assessor to accept the application as if timely filed. The claimant must file a separate application for each assessment year in which the exemption is sought. If an application is filed within the required time and is approved by the assessor, the assessor shall allow an exemption in accordance with the provisions of this section. If a failure to file by January 15, or a date provided by ordinance that is not later than March 31, of the assessment year has been waived as provided in this subsection and the application for exemption is approved, the amount of tax that the claimant has already paid for the assessment year for the property exempted shall be refunded to the claimant. The assessor shall require proof in the form the assessor considers necessary of the right to and amount of an exemption claimed under (e) of this section, and shall require a disabled veteran claiming an exemption under (e) of this section to provide evidence of the disability rating. The assessor may require proof under this section at any time.

(g) The state shall reimburse a borough or city, as appropriate, for the real property tax revenues lost to it by the operation of (e) of this section. However, reimbursement will be made to a municipality for revenue lost to it only to the extent that the loss exceeds an exemption that was granted by the municipality, or that on proper application by an individual would have been granted under AS 29.45.050(a). If appropriations are not sufficient to fully fund reimbursements under this subsection, the amount available shall be distributed pro rata among eligible municipalities.

(h) Except as provided in (g) of this section, nothing in (e) - (j) of this section affects similar exemptions from property taxes granted by a municipality on September 10, 1972, or prevents a municipality from granting similar exemptions by ordinance as provided in AS 29.45.050.

(i) In (e) - (i) of this section

(1) "disabled veteran" means a disabled person separated from the military service of the United States under a condition that is not dishonorable who is a resident of the state, whose disability was incurred or aggravated in the line of duty in the military service of the United States, and whose disability has been rated as 50 percent or more by the branch of service in which that person served or by the Veterans' Administration;

(2) "real property" includes but is not limited to mobile homes, whether classified as real or personal property for municipal tax purposes.

SENIOR CITIZEN AND DISABLED VETERAN PROPERTY TAX EQUIVALENCY PROGRAM HISTORY AS 29.45.040

September 18, 1976 - the Senior Citizen Property Tax Exemption Program was enacted and became effective the same date (Sec. 2, Chapter 217, SLA 1976).

> The amount of the equivalency payment is computed by multiplying the number of mills which a municipality levies times one-half percent to determine the percentage portion of the total annual rent paid. The result is considered to be the amount of property tax which is included as part of the rent. The amount of equivalency payment grant is subject to a limitation of $375 for a full year. For 1976, the $375 limitation was adjusted to 28.688%, or $107.58.

January 1, 1978 - the Act was amended to increase the payment from 1/2 percent to 1 percent and the $375 payment limit was eliminated.

January 1, 1985 - the Act was amended to include a disabled veteran whose disability is 50 percent or more and the widow or widower of a person who was eligible for payment and is at least 60 years old. Prorationing language was also included in this bill allowing the department to prorate payments if appropriations are not sufficient to fully fund tax equivalency payments.

CHAPTER 45
PROPERTY TAX EQUIVALENCY PAYMENTS

* AS 29.45.040

Sec. 29.45.040. Property tax equivalency payments. (a) A resident of the state who rents a permanent place of abode is eligible for a tax equivalency payment from the state through the department if the resident is:

(1) at least 65 years old;

(2) a disabled veteran; or

(3) at least 60 years old and the widow or widower of a person who was eligible for payment under (1) or (2) of this subsection.

(b) For purposes of determining the amount of a payment to an eligible person, the department shall calculate at the rate of one percent per mill a property tax equivalent percentage for each municipality that levies a property tax. The property tax equivalent percentage applied to the annual rent charged to the applicant equals the property tax equivalency payment payable under this section.

(c) To obtain a tax equivalency payment the eligible resident must apply to the department for payment for the preceding year by January 15 of each year on forms and in the manner prescribed by the department. The department for good cause shown may waive an applicant's failure to make timely application for a tax equivalency payment and accept the application as if timely filed. Each applicant shall submit with the application rental receipts or, if rental receipts are not available, other evidence satisfactory to the department for determination of the fact of payment of rent and the amount paid. A disabled veteran shall submit with the application evidence of the disability rating.

(d) If two or more persons occupy a residence as tenants, not all of whom are eligible for a tax equivalency payment under this section, the assessor shall determine equitable partial payments to be made to the eligible tenants. However, a tax equivalency payment to an eligible applicant may not be reduced because the spouse is less than 65 years of age or is not a disabled veteran. If all occupants in a residence are eligible for a tax equivalency payment under this section, the occupants shall decide between and among themselves which shall receive payment.

SENIOR CITIZEN MOTOR VEHICLE REGISTRATION TAX PAYMENT

SENIOR CITIZEN MOTOR VEHICLE TAX EXEMPTION
AS 29.45.030(j)

October 15, 1978 - the law requiring senior citizen motor vehicle registration tax payments was enacted (Chapter 178, SLA 1978).

January 1, 1979 - the Division of Motor Vehicles began to administer this program.

January 1, 1987 - the Legislature amended this program and eliminated the States obligation to reimburse municipalities for lost revenues. However, the Senior Citizen will continue to receive the exemption. Effective 1/1/87 (Chapter 70, SLA 86).

"The Department of Community and Regional Affairs shall pay to the borough or city in which a person who is granted an exemption under (c) of this section resides, an amount equal to the tax levied under section 431(b) of this chapter regardless of whether the borough or city is eligible for the tax levied under that section."

The law provides for exemption from the locally imposed, state collected registration tax on a motor vehicle owned by a Senior Citizen. The Senior Citizen completes an exemption form at the time of registration and is exempt from the tax. That form is then forwarded to the Department of Community and Regional Affairs and the appropriate municipality is reimbursed.

A summary of program payments by municipalities for Fiscal Year 1986 is provided on the following page.

The six-year program performance summary is outlined below:

FISCAL YEAR	NUMBER OF AFFIDAVITS	MUNICIPAL REIMBURSEMENT	AVERAGE PER AFFIDAVIT

SENIOR CITIZEN SPECIAL ASSESSMENT DEFERMENT PROGRAM HISTORY AS 29.46.090

September 2, 1975 - the first senior citizen deferred tax program relating to special assessments was enacted (Sec. 1, Chapter 114, SLA 1975).

June 21, 1976 - the act was repealed and reenacted (Sec. 1, Chapter 215, SLA 1976).

June 2, 1979 - the renewal deadline was extended to March 15, and the department became the agency responsible for waiver of the deadline (Sec. 23, Chapter 83, SLA 1979).

January 1, 1987 - this program was repealed in Chapter 70, SLA 86. Senior citizens currently on the program will continue to receive deferral of the special assessment payment.

The law provides for deferred payment of special assessments levied by municipalities for the installation of sewer and/or water systems. Properties owned and occupied by permanent residents of the state, 65 years of age or older, may be eligible.

State reimbursement is provided to the municipality for revenue lost in operation of the program. At the time of reimbursement, the municipal lien is satisfied and a lien in favor of the state is recorded in the amount of the assessment levied upon the property. The lien becomes due and payable upon sale or transfer of the property except to a spouse, widow, widower, or minor heir. Qualification must be verified each year in order for the deferment to be retained.

* AS 29.46.090

Sec. 29.46.090. Exemption. (a) The real property owned and occupied by a resident 65 years of age or over, or the spouse, widow, widower, or minor heir of the original applicant, on which is located only the permanent abode of the applicant that is a single-family residence, is exempt from (1) special sewer assessments levied by a municipality after September 2, 1975, and (2) special water assessments levied by a municipality after September 2, 1975. Only one exemption may be granted with respect to the same property, and, if two or more persons are eligible for an exemption with respect to the same property, the parties shall decide between or among themselves which shall receive the benefit of the exemption. Real property may not be exempted under this subsection that the municipality determines, after notice and hearing to the parties concerned, has been conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the municipality is appealable under AS 44.62.560 - 44.62.570.

(b) An exemption may not be granted under this section except upon written application for the exemption on a form prescribed by the state assessor for use by local assessors and in accordance with the following requirements:

(1) the claimant must file the initial application during the period of time between the date the assessment roll is confirmed and the time of payment fixed by the governing body. Within one year after the date the assessment roll is confirmed the governing body for good cause shown may waive the claimant's failure to make timely initial application for the exemption and authorize the assessor to accept the application as if timely filed.

(2) a claimant receiving the exemption must file with the assessor by March 15 of each subsequent year a separate application proving eligibility as of January 1 in order to retain the exemption. Within the same year the assessor for good cause shown may waive the claimant's failure to make timely application and approve the application as if timely filed.

(3) if an application is filed within the required time under this subsection and is approved by the governing body, the exemption shall be allowed in accordance with the provisions of this section. If a waiver under this subsection is granted and the application for exemption approved, the amount of any assessment, penalty, or interest that the claimant has already paid on the assessment shall be refunded to the claimant. The municipality may at any time require proof in the form considered necessary of the right and amount of an exemption claimed under this section.

(c) The state shall reimburse a municipality for the sewer and water assessment revenues that it would receive but for the operation of this section. Reimbursement under this subsection is a lien in favor of the state against the property exempted to the extent of the assessment against the property exempted. When properly recorded, the lien is prior and superior to other liens against the property except for property taxes or other special assessments and may be enforced by lien foreclosure. The lien becomes immediately due and payable

(1) upon sale or other transfer of the property except to a spouse, widow, widower, or minor heir; however, if the property is transferred to a minor heir the lien becomes due and payable on the date the minor heir reaches the age of 25 years;

(2) when property exempted under (a)(1) or (2) of this section receives more than one sewer connection or more than one water connection; or

(3) when the claimant fails to prove eligibility under (b)(2) of this section.

(d) This section applies to home rule and general law municipalities.

(e) In this section

(1) "minor heir" means a person who, at the time of transfer of the property, has not attained the age of 19 years or who, if under 22 years of age, is a full-time student at an educational institution or a member of the armed forces of the United States;

(2) "real property" includes, but is not limited to, mobile homes, whether classified as real or personal property for municipal tax purposes.

19 AAC 37.040. LIEN. (a) Upon sale or transfer of all or a portion of the real property, subject to the requirements of AS 29.63.065(c), the entire lien becomes due and payable.

(b) Upon demonstrated need, the department will, in its discretion, arrange repayment of the lien in periodic installments. Upon repayment of the total amount the department will release the lien. If the payment schedule becomes 30 days delinquent, foreclosure of the lien will begin 60 days after notice of delinquency.

(c) Upon sale or other transfer of all or a portion of the real property, the department will release the lien on the entire property and issue a new lien on the portion retained by the claimant if:

FARM LAND USE ASSESSMENT

FARM USE LAND ASSESSMENT PROGRAM HISTORY
AS 29.45.060

January 1, 1968 - the first Farm and Agricultural Lands Deferred Tax Program was enacted (Chapter 82, SLA 1967).

January 1, 1975 - the act was substantially amended (Sec. 1, Chapter 90 SLA 1974). The 1974 amendment reduced the yearly gross farm income requirement from 25% to 10%, provided for the averaging of income over a three year period, provided for estimated farm income for the current year, provided for the use of the lessee farm income to qualify the owner for farm use assessment, increased to seven years the deferred tax payment provision, and provided for reimbursement by the state of property tax revenue lost to the municipality through the operation of the act.

January 1, 1977 - the act was further amended (Sec. 3, Chapter 229, SLA 1976). The 1976 amendment increased the penalty for conversion of the land to a use incompatible with farm use by requiring the owner to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years as though the land had not been assessed for farm use purposes.

September 10, 1978 - the filing deadline was moved to May 15 (Sec. 1, Chapter 66, SLA 1978).

The program was essentially inactive during the first four years of operation since agricultural and rural real estate, for a variety of reasons, simply was not assessed at as high a percentage of value as urban real estate.

The Farm Use Land Assessment Program requires a differential assessment for qualified farm land, with the owner's paying taxes on the land value as a farm, and the State paying the taxes on the remaining value. If the land is converted to a use incompatible with farming, the owner is liable to pay the deferred tax for the preceding seven years.

Experience over the past several years has vividly demonstrated the difficulty of administering the existing legislation. The omission of a lien provision to make the eligible property liable for the payment to the state of an amount equal to the deferred taxes plus interest is a glaring weakness in the legislation which effectively negates the imposition of the penalty provisions.

MUNICIPAL ASSESSMENT AND TAXATION
AS 29.45.060. FARM OR AGRICULTURAL LAND

Sec. 29.45.060. Farm or Agricultural Land. (a) Farm use land included in a farm unit and not dedicated or being used for nonfarm purposes shall be assessed on the basis of full and true value for farm use and may not be assessed as if subdivided or used for some other nonfarm purpose. The assessor shall maintain records valuing the land for both full and true value and farm use value. If the land is sold, leased, or otherwise disposed of for uses incompatible with farm use or converted to a use incompatible with farm use by the owner, the owner is liable to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years, as though the land had not been assessed for farm use purposes. Payment by the owner shall be made to the state to the extent of its reimbursement for revenue loss under (e) of this section for the preceding seven years. The balance of the payment shall be made to the municipality.

(b) An owner of farm use land must, to secure the assessment under this section, apply to the assessor before May 15 of each year in which the assessment is desired. The application shall be made upon forms prescribed by the state assessor for the use of the local assessor, and shall include information that may reasonably be required to determine the entitlement of the applicant. If the land is leased for farm use purposes, the applicant shall furnish to the assessor a copy of the lease bearing the signatures of both lessee and lessor along with the completed application. The applicant shall furnish the assessor a copy of the lease covering the period for which the exemption is requested.

(c) In this section "farm use" means the use of land for profit for raising and harvesting crops, for the feeding, breeding, and management of livestock, for dairying, or another agricultural use, or any combination of these. To be farm use land, the owner or lessee must be actively engaged in farming the land, and derive at least 10 percent of yearly gross income from the land. This section does not apply to land for which the owner has granted, and has outstanding, a lease or option to buy the surface rights. A property owner wishing to file for farm use classification having no history of farm-related income may submit a declaration of intent at the time of filing the application with the assessor setting out the intended use of the land and the anticipated percentage of income. An applicant using this procedure shall file with the assessor before February 1 of the following year a notarized statement of the percentage of gross income attributable to the land. Failure to make the filing required in this subsection forfeits the exemption.

(d) In the event of a crop failure by an act of God the previous year, the owner or lessee may submit an affidavit affirming that 10 percent of gross income for the past three years was from farming.

(e) Subject to legislative appropriations for the purposes, the state shall reimburse a borough or city, as appropriate, for the property tax revenues lost to it by the operation of this section.

DEPARTMENT OF COMMUNITY & REGIONAL AFFAIRS
CHAPTER 38, FARM OR AGRICULTURAL LANDS

19 AAC 38.010. FORMS. (a) The Department of Community and Regional Affairs Form 21-410 and Form 21-411 are adopted for use in application for the farm and agricultural land use assessment and tax deferment program.

(b) Application and authorization forms shall be made available by and shall be returned to the clerk or assessor of the municipality in which the land for which the farm use assessment and tax deferment are sought is located. (Eff. 12/31/75, Reg. 56)

19 AAC 38.020. INCOME VERIFICATION. (a) In addition to the application prescribed in 19 AAC 38.010, an applicant must establish before May 15th of the assessment year that the gross income attributed to farm use land is at least 10 percent of the applicant's yearly gross income, by either

(1) providing the clerk or assessor of the municipality proof of income eligibility as shown by income tax returns or other reasonably documented information which is determined by the local assessor to be sufficient proof of eligibility; or

(2) providing the department with copies of signed federal income tax returns submitted to the Internal Revenue Service for the previous year.

(b) Failure to provide documentation as required by this section forfeits the claim for reimbursement for that assessment year. (Eff. 11/24/82, Register 84)

19 AAC 38.030. APPEAL. An Applicant for the farm use assessment and tax deferment who believes that the valuation or classification assigned to the land that is the subject of the application is erroneous may appeal to the board of equalization of the municipality in which the land is located in the manner provided by AS 29.53.130. The municipality shall report the disposition of all such appeals to the state assessor. (Eff. 12/31/75, Reg. 56)

19 AAC 38.040. MAINTENANCE OF RECORDS DUPLICATE COPIES. The municipality in which the land is located shall maintain separate files and records of all applications for the farm use assessment and tax deferment, whether allowed by the municipality or not, including valuation of the property under the full and true value standard of AS 29.53.060. Duplicate copies of all records relating to the application entered in the file shall be forwarded to the state assessor. The municipality shall investigate to determine whether title to land for which the assessment and deferment have been granted has been conveyed or alienated in such a way that the assessment or deferment may be terminated and shall advise the state assessor as to the results of its investigation. (Eff. 12/31/75, Reg. 56)

19 AAC 38.050. CONFIDENTIALITY. Tax records and other documents providing evidence of the applicant's eligibility for the farm use assessment and tax deferment are confidential and shall be used only for the purpose of ascertaining whether the applicant is entitled to the benefits of the assessment and deferment. (Eff. 12/31/75, Reg. 56)

19 AAC 38.060. DEFINITIONS. In this chapter:

(1) "farm use assessment" means the value of the unit or parcel of property for which application for a farm use assessment and tax deferment is made, based upon its highest and best use as farm or agricultural land;

(2) "yearly gross income" means the income of the applicant for the year preceding the tax year for which the application is filed and means the adjusted gross income of the applicant as defined in Section 62 of the Internal Revenue Code (26 U.S.C. 62). (Eff. 12/31/75, Reg. 56)

Sec. 29.45.110. Full and true value. (a) The assessor shall assess property at its full and true value as of January 1 of the assessment year, except as provided in this section, AS 29.45.060, and 29.45.230. The full and true value is the estimated price that the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer, both conversant with the property and with prevailing general price levels. (§ 12 ch 74 SLA 1985)

Title 43 - **Oil and Gas Property Taxes**

Sec. 43.56.060. Assessment. (a) The department shall assess property for the tax levied under AS 43.56.010(b) and AS 29.53.045 on property used or committed by contract or other agreement for use for the pipeline transportation of gas or unrefined oil or for the production of gas or unrefined oil at its full and true value as of January 1 of the assessment year. (§ 1 ch 1 FSSLA 1973)

METHOD OF VALUATION

Title 29 - Municipal Government
Department of Community and Regional Affairs

A borough has discretion to appraise by whatever recognized method of valuation it chooses, so long as there is no fraud or clear adoption of a fundamentally wrong principle of valuation. Hoblit v. Greater Anchorage Area Borough, Sup. Ct. Op. No 636 (File No. 1214), 473 P.2d 630 (1970)

Sec. 29.45.060. Farm or agricultural land. (a) Farm use land included in a farm unit and not dedicated or being used for nonfarm purposes shall be assessed on the basis of full and true value for farm use and may not be assessed as if subdivided or used for some other nonfarm purpose. The assessor shall maintain records valuing the land for both full and true value and farm use value. If the land is sold, leased, or otherwise disposed of for uses incompatible with farm use by the owner, the owner is liable to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years, as though the land had not been assessed for farm use purposes. Payment by the owner shall be made to the state to the extent of its reimbursement for revenue loss under (e) of this section for the preceding seven years. The balance of the payment shall be made to the municipality.

(b) An owner of farm use land must, to secure the assessment under this section, make application to the assessor before May 15 of each year in which the assessment is desired. The application shall be made upon forms prescribed by the state assessor for the use of the local assessor, and shall include information that may reasonably be required to determine the entitlement of the applicant. If the land is leased for farm use purposes, the applicant shall furnish to the assessor a copy of the lease bearing the signatures of both lessee and lessor along with the completed application. The applicant shall furnish the assessor a copy of the lease covering the period for which the exemption is requested. (§ 12 ch 74 SLA 1985)

Legislative Resolve No. 49

Whereas in 1972 the legislature enacted AS 29.53.020(e), making my real property owned and occupied as a permanent place of abode by a qualifying resident 65 years of age or over exempt from municipal property tax; and

Whereas the legislature intended that the entire parcel of land owned by a resident 65 years of age or over be exempted from municipal property taxation, regardless of size;

Be It Resolved by the Alaska State Legislature that real property owned and occupied as a permanent place of abode by a qualifying resident 65 years of age or over shall be exempt from municipal property tax in its entirety regardless of size.

Copies of this resolution shall be sent to the governor, the commissioner of community and regional affairs, and each municipality in Alaska.

Sec. 29.45.060. (c) In this section "farm use" means the use of land for profit for raising and harvesting crops, for the feeding, breeding, and management of livestock, for dairying, or another agricultural use, or any combination of these. To be farm use land, the owner or lessee must be actively engaged in farming the land, and derive at least 10 percent of yearly gross income from the land. This section does not apply to land for which the owner has granted, and has outstanding, a lease or option to buy the surface rights. A property owner wishing to file for farm use classification having no history of farm-related income may submit a declaration of intent at the time of filing the application with the assessor setting out the intended use of the land and the anticipated percentage of income. An applicant using this procedure shall file with the assessor before February 1 of the following year a notarized statement of the percentage of gross income attributable to the farm use land. Failure to make the filing required in this subsection forfeits the exemption.

(d) In the event of a crop failure by an act of God the previous year, the owner or lessee may submit an affidavit affirming that 10 percent of his gross income for the past three years was from farming.

(e) Subject to legislative appropriations for the purpose, the state shall reimburse a borough or city, as appropriate, for the property tax revenues lost to it by the operation of this section. (§ 12 ch 74 SLA 1985)

Sec. 29.45.070. Mobile homes. Mobile homes, trailers, house trailers, trailer coaches and similar property used or intended to be used for residential, office, or commercial purposes and attached to the land or connected to water, gas, electric, or sewage facilities are classified as real property for tax purposes unless expressly classified as personal property by ordinance. This section does not apply to house trailers and mobile homes that are unoccupied and held for sale by persons engaged in the business of selling mobile homes. (§ 12 ch 74 SLA 1985)

Sec. 29.45.110. Full and true value. (b) Assessment of business inventories may be based on the average monthly method of assessment rather than the value existing on January 1. The method used to assess business inventories shall be prescribed by the governing body.

(c) In the case of cessation of business during the tax year, the municipality may provide for reassessment of business inventories using the average monthly method of assessment for the tax year rather than the value existing on January 1 of the tax year, and for reduction and refund of taxes. In enacting an ordinance authorized by this section, the municipality may prescribe procedures, restrictions, and conditions of assessing or reassessing business inventories and of remitting or refunding taxes.
(§ 12 ch 74 SLA 1985)

METHOD OF VALUATION

Title 43 - Oil and Gas Property Taxes
Department of Revenue

Sec. 43.56.060. Assessment. (b) The department shall assess property for the taxes levied under AS 43.46.010(a) at its full and true value as of January 1 of the assessment year except that in the case of taxable property used or committed by contract or other agreement for the pipeline transportation of gas or unrefined oil or for the production of gas or unrefined oil to be transported by that pipeline, the first assessment date shall be the construction commencement date. If the construction commencement date is used as the assessment date, the tax payable shall be prorated on the basis of the assessment year remaining.

(c) The full and true value of taxable property used or committed by contract or other agreement for use in the exploration for gas or unrefined oil, or in the operation or maintenance of facilities for the exploration for gas or unrefined oil, is the estimated price which the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer both conversant with the property and with prevailing general price levels.

(d) The full and true value of taxable property used or committed by contract or other agreement for the production of gas or unrefined oil or in the operation or maintenance of facilities for the production of gas or unrefined oil is:

1) on the construction commencement date the actual cost incurred or accrued with respect to the property as of the date of assessment;

2) determined on each January 1 thereafter on the basis of replacement cost less depreciation based on the economic life of proven reserves.

(e) The full and true value of taxable property used or committed by contract or other agreement for pipeline transportation of gas or unrefined oil or in the operation or maintenance of facilities for the pipeline transportation of gas or unrefined oil is:

1) on the construction commencement date and until January 1 following the date the pipeline begins to transport gas or unrefined oil, the actual cost incurred or accrued with respect to the property as of the date of assessment;

2) determined on each January 1 thereafter with due regard to the economic value of the property based on the estimated life of the proven reserves of gas or unrefined oil then technically, economically and legally deliverable into the transportation facility; however, if the proven reserves of gas or unrefined oil then technically, economically and legally deliverable indicate an economic life materially shorter than the estimated physical life of the transportation facility, the full and true value is the actual cost reduced by an annual allowance for depreciation on a straight line basis over an economic life based on the actual elapsed life from the commencement of full operation to the date of assessment plus the estimated remaining life of the proven reserves of gas and unrefined oil then technically, economically and legally deliverable into the transportation facility as of the date of the assessment;

Sec. 43.56.060. 3) on the assessment date next following inability to use or construct all or a substantial part of the facility for a period of 90 or more consecutive days because of natural disaster or legal prohibition, or other events beyond the control of a person having ownership or control of the property, adjusted to take into account any diminution in value.

(f) For purposes of this section, "actual cost" and "replacement cost" do not include interest capitalized before or during the period of construction nor the value of intangible drilling expenses. In the case of taxable property under construction, "actual cost" for purposes of this section means the costs incurred or accrued with respect to the property as of the date of assessment.

(g) The department may enter into agreements with a municipality for the cooperative or joint administration of the assessing authority conferred on the department by this section. (§ 1 ch 1 FSSLA 1973)

Title 28 - **Motor Vehicles**
Department of Public Safety

Sec. 28.10.431. Annual Motor Vehicle Registration Tax. (a) There is levied a motor vehicle registration tax within each municipality which elects, by passage of an appropriate ordinance, to come under this section. A municipality shall file a written notice of election with the department and may not rescind the notice for a subsequent fiscal year. The notice must be filed on or before January 1 of the year preceding the year election under this section is to become effective. If a municipality has, before October 15, 1978, levied a motor vehicle registration or ad valorem tax which has been repealed by a vote of the people at any regular or special municipal election, then the election provided for in this subsection is not effective until the ordinance passed by the local governing body has been approved by the people at the next regularly scheduled general or special municipal election.

(b) The tax is levied upon motor vehicles subject to the license tax under AS 28.10.411 and 28.10.421, not including mobile homes, and is based upon the age of the vehicles as determined by model year according to the following schedule:

Tax According to the Age of Vehicle Since Model Year:

(9) vehicles specified in AS 29.10.421(d)(10)	$40							

Sec. 28.10.431. (c) The registration tax shall be levied, collected, enforced and otherwise administered in the same manner as provided for the registration fees in this chapter. Only one registration tax may be collected with respect to the same motor vehicle in the year for which the tax is paid.

(d) If a person has paid both the registration fee levied in AS 28.10.411 and 28.10.421 and the registration tax levied in this section, and the department determines that the payor is entitled to a refund in whole or part of the registration tax, the department shall make the refund to which the person is entitled. A refund may not be made unless application for a refund is filed with the department by December 31 of the year following the year for which the refund is claimed.

(e) The department shall refund money collected under this section, less five percent as collection costs, to a municipality for which the money was collected, as determined by (1) the address of residence of an individual required to pay the tax, or (2) the situs of the vehicle if the vehicle is not owned by an individual; the tax situs is the location at which the motor vehicle is usually, normally, or regularly kept or used. For the first year in which the tax is levied within a municipality, the department may retain actual costs of collection of the tax within the municipality as determined by the department.

(f) Money received by an organized borough under this section shall be allocated by the borough by ordinance for city, area outside city, and service area purposes within the borough.

(g) Payment of the registration tax is in lieu of all local use taxes and ad valorem taxes on motor vehicles subject to the tax. A municipality which elects to come under the provision of this section may not levy use or ad valorem taxes on motor vehicles subject to the registration tax during a fiscal year in which the election is in effect.

Title 29 - Municipal Government
Department of Community and Regional Affairs

Sec. 29.45.030. Required exemptions. (a) The following property is exempt from general taxation:

(1) municipal, state or federally owned property, except that private a leasehold, contract, or other interest in the property shall be taxable to the extent of the interest;

(2) household furniture of the head of a family or household;

(3) property used exclusively for nonprofit religious, charitable, cemetery, hospital or educational purposes;

(4) property of a nonbusiness organization or its auxiliary composed entirely of persons with 90 days or more of active service in the armed forces of the United States whose conditions of service and separation were other than dishonorable;

(5) money on deposit;

(6) the real property of certain residents of the state to the extent and subject to the conditions provided in (e) of this section;

(7) real property or an interest in real property that is exempt from taxation under 43 U.S.C. 1620(d), as amended.

(b) In (a) of this section, "property used exclusively for religious purposes" includes the following property owned by a religious organization:

(1) the residence of a bishop, pastor, priest, rabbi, minister or religious order of a recognized religious organization;

(2) a structure, its furniture and its fixtures used solely for public worship, charitable purposes, religious administrative offices, religious education, or a nonprofit hospital;

(3) lots required by local ordinance for parking near a structure defined in (2) of this subsection.

(c) Property described in (a)(3) or (4) of this section from which income is derived is exempt only if that income is solely from use of the property by nonprofit religious, charitable, hospital, or educational groups. If used by nonprofit educational groups, the property is exempt only if used exclusively for classroom space.

(d) Laws exempting certain property from execution under the Code of Civil Procedures (AS 09) do not exempt the property from taxes levied and collected by municipalities.

Sec. 29.45.030. (e)* The real property owned and occupied as the primary residence and permanent place of abode by a (1) resident 65 years of age or older; (2) disabled veteran; or (3) resident at least 60 years old who is the widow or widower of a person who qualified for an exemption under (1) or (2) of this subsection, is exempt from taxation on the first $150,000 of the assessed value of the real property. A municipality may, in a case of hardship, provide for exemption beyond the first $150,000 of assessed value in accordance with regulations of the department. Only one exemption may be granted for the same property and, if two or more persons are eligible for an exemption for the same property, the parties shall decide between or among themselves who is to receive the benefit of the exemption. Real property may not be exempted under this subsection if the assessor determines, after notice and hearing to the parties, that the property was conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the assessor may be appealed under AS 44.62.560-44.62.570.

(f) An exemption may not be granted under (e) of this section except upon written application for the exemption on a form prescribed by the state assessor for use by local assessors. The claimant must file the application no later than January 15, or a date provided by ordinance that is not later than March 31, of the assessment year for which the exemption is sought. The governing body of the municipality for good cause shown may waive during a year the claimant's failure to make timely application for exemption for that year and authorize the assessor to accept the application as if timely filed. The claimant must file a separate application for each assessment year in which the exemption is sought. If an application is filed within the required time and is approved by the assessor, he shall allow an exemption in accordance with the provisions of this section. If a failure to file by January 15, or a date provided by ordinance that is not later than March 31, of the assessment year has been waived as provided in this subsection and the application for exemption is approved, the amount of tax that the claimant has already paid for the assessment year for the property exempted shall be refunded to the claimant. The assessor shall require proof in the form the assessor considers necessary of the right to and amount of an exemption claimed under (e) of this section, and shall require a disabled veteran claiming an exemption under (e) of this section to provide evidence of the disability rating. The assessor may require proof under this section at any time.

(g) The state shall reimburse a borough or city, as appropriate, for the real property tax revenues lost to it by the operation of (e) of this section. However, reimbursement will be made to a municipality for revenue lost to it only to the extent that the loss exceeds an exemption which was granted by the municipality, or that on proper application by an individual would have been granted under AS 29.45.050(a). If appropriations are not sufficient to fully fund reimbursements under this subsection, the amount available shall be distributed pro rata among eligible municipalities.

*Sec. 29.45.030(e) amended effective 1/1/87 (§ 3 ch 70 SLA 1986).

Sec. 29.45.030. (h) Except as provided in (g) of this section, nothing in (e)-(j) of this section affects similar exemptions from property taxes granted by a municipality on September 10, 1972, or prevents a municipality from granting similar exemptions by ordinance as provided in AS 29.45.050.

(i) In (e)-(i) of this section

(1) "disabled veteran" means a disabled person separated from the military service of the United States under a conditions that is not dishonorable who is a resident of the state, whose disability was incurred or aggravated in the line of duty in the military service of the United States, and whose disability has been rated as 50 percent or more by the branch of service in which that person served or by the Veterans' Administration.

(2) "real property" includes but is not limited to mobile homes, whether classified as real or personal property for municipal tax purposes.

(j) One motor vehicle per household owned by a resident 65 years of age or older on January 1 of the assessment year is exempt either from taxation on its assessed value or from the registration tax under AS 28.10.431. An exemption may be granted under this subsection only upon written application on a form prescribed by the Department of Public Safety. The state shall reimburse a municipality for tax revenues lost to it because of the exemption required by this subsection. Reimbursement to a municipality equals the amount of registration tax authorized under AS 28.10.431(b) for each vehicle exempted under this subsection.

(k) The department shall adopt regulations to implement the provisions of (g) and (j) of this section.

(l) Two percent of the assessed value of a structure is exempt from taxation if the structure contains a fire protection system approved under AS 18.70.081, in operating condition, and incorporated as a fixture or part of the structure. The exemption granted by this subsection is limited to

(1) an amount equal to two percent of the value of the structure based on the assessment for 1981, if the fire protection system is a fixture of the structure on January 1, 1981; or

(2) an amount equal to two percent of the value of the structure based on the assessment as of January 1 of the year immediately following the installation of the fire protection system if the fire protection system becomes a fixture of the structure after January 1, 1981.

Sec. 29.45.050. Optional exemptions and exclusions. (a) A municipality may exclude or exempt or partially exempt residential property from taxation by ordinance ratified by the voters at an election. An exclusion or exemption authorized by this section may not exceed the assessed value of $10,000 for any one residence.

(b) Municipalities may by ordinance

(1) classify boats and vessels for purposes of taxation and may establish the assessed valuation of boats and vessels on the basis of their registered or certificated net tonnage;

(2) classify and exempt from taxation

(A) the property of an organization not organized for business or profit-making purposes and used exclusively for community purposes if the income derived from rental of that property does not exceed the actual cost to the owner of the use by the renter;

(B) historic sites, buildings and monuments;

(C) land of a nonprofit organization used for agricultural purposes if rights to subdivide the land are conveyed to the state and the conveyance includes a covenant restricting use of the land to agricultural purposes only; rights conveyed to the state under this subparagraph may be conveyed by the state only in accordance with AS 38.05.069(c);

(3) exempt personal property from taxation;

(4) exempt business inventories from taxation;

(5) classify as to type and exempt or partially exempt any or all types of motor vehicles from taxation.

(2) a home rule or first class city has the same power to grant exemptions or exclude property from borough taxes that it has as to city taxes if

(A) the exemptions or exclusions have been adopted as to city taxes; and

(B) the city appropriates to the borough sufficient money to equal revenues lost by the borough because of the exemptions or exclusions, the amount to be determined annually by the assembly;

(e) A municipality may by ordinance classify and exempt or partially exempt from taxation privately owned land, wet land and water areas for which a scenic, conservation, or public recreation use easement is granted to a governmental body. To be eligible for a tax exemption, or partial exemption, the easement must be in perpetuity. However, the easement is automatically terminated before an eminent domain taking of fee simple title or less than fee simple title to the property, so that the property owner is compensated at a rate which does not reflect the easement grant.

(f) A municipality may by ordinance exempt from taxation all or any part of the increase in assessed value of improvements to real property if an increase in assessed value is directly attributable to alteration of the natural features of the land, or new maintenance, repair or renovation of an existing structure, and if the alteration, maintenance, repair, or renovation, when completed, enhances the exterior appearance or aesthetic quality of the land or structure. An exemption may not be allowed under this subsection for the construction of an improvement to a structure if the principal purpose of the improvement is to increase the amount of space for occupancy or nonresidential use in the structure or for the alteration of land as a consequence of construction activity. An exemption provided in this subsection may continue for up to four years from the date the improvement is completed, or from the date of approval for the exemption by the local assessor, whichever is later.

(g) A municipality may by ordinance exempt from taxation all or part of the increase in assessed value of improvements to a single-family dwelling if the principal purpose of the improvement is to increase the amount of space for occupancy. An exemption provided in this subsection may continue for up to two years from the date the improvement is completed, or from the date of approval of an application for the exemption by the local assessor, whichever is later. A reduction of taxes may be made only on losses in excess of $1,000 for the remainder of the year following the disaster. On reassessment, the municipality shall recompute this tax and refund taxes that have already been paid.

(c) The municipality shall give notice of assessment or reassessment under this section and shall hold an equalization hearing as provided in this chapter, except that a notice of appeal must be filed with the board of equalization within 10 days after notice of assessment or reassessment is given to the person appealing. Otherwise, the right of appeal ceases unless the board finds that the taxpayer is unable to comply.

OPTIONAL EXEMPTIONS
